

**Yellow - #7 – (East of Cap-Haitien)  
Clinique de Bienfaisance  
Danda, Haiti**

**During our 2006 medical mission trip to Haiti, I was approached by Dr. Steve James, a full-time missionary physician in Haiti, to assess a clinic he serves in Danda called Clinique de Bienfaisance (upper left panel). Steve arranged a meeting with the Pastor Elima Etienne of the Baptist Church associated with the clinic. We were not able to service the clinic during the 2007 summer trip because the distance was too great from our home base. However, I did send materials to them shortly after returning from Haiti and we hope to assess them during the 2008 medical mission trip.**
